SUMMARY

Software Engineer & UI Architect with 6+ years of experience building and scaling enterprise SaaS platforms using React, Angular, TypeScript, and Redux. Proven track record of measurable performance wins (-30% page load times, +12% engagement lift, +25% traffic growth) through lazy-loading architectures, UI redesigns, and WCAG-compliant design systems. Proficient across the full stack with Node.js, FastAPI, NestJS, and PostgreSQL. Strong cross-functional leader experienced in sprint planning, peer code reviews, and developer mentorship.

SKILLS

Languages/Core: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass

Frameworks/Libraries: React, Redux, Angular, Tailwind CSS, Bootstrap

Backend: Node.js, Python, FastAPI, NestJS, MongoDB, PostgreSQL

Tooling/Testing: Git, Webpack, Vite, Docker, Jest, Jasmine, Postman, REST APIs, Azure

EXPERIENCE

Software Developer — ImpplyCloud India Pvt. Ltd. (Annex Cloud)

Nov 2022 – Present | Pune, Maharashtra, India

- Architect scalable, cross-browser web interfaces and design system components using React, Angular, and modern TypeScript across core SaaS products.
- Drive responsive layout standards and state management strategies to ensure seamless performance across enterprise client environments.
- Cut page load times by 30% via a lazy-loading rollout and bundle optimization, directly improving customer retention.
- Led a flagship product redesign through collaborative prototyping and usability testing, resulting in a 12% lift in engagement and a 10% reduction in bounce rate.

UI Developer — Impply India Technology Pvt. Ltd. (Annex Cloud)

Sep 2021 – Oct 2022 | Pune, Maharashtra, India

- Developed and optimized interfaces for a client platform in an agile environment.
- Integrated RESTful APIs using test-driven development for back-end communication.
- Ran peer code reviews and enforced WCAG accessibility standards, driving a 15% increase in client engagement.
- Investigated and resolved escalated production bugs; mentored junior developers on WordPress and clean JavaScript practices.

Software Engineer — Tecversa IT Solutions Pvt. Ltd.

Jan 2019 – Feb 2021 | Bangalore, Karnataka, India

- Built single-page applications with Angular and React using virtual DOM concepts, across audit, banking, insurance, and finance domains.
- Reworked JSON parsing for data handling, improving performance by 20%.
- Migrated a legacy UI to React, improving scalability and maintainability.
- Built data-driven SEO initiatives that grew website traffic by 25%.

Tag Developer / Tag Manager — EXL TechnoSolutions Pvt. Ltd.

Jan 2018 – Jan 2019 | Bangalore, India

- Implemented and maintained first- and third-party tags using Google Tag Manager; coded deployments with HTML, CSS, JavaScript, and jQuery.
- Built custom tags to capture organization-specific analytics events; used Google Analytics for reporting.
- Identified and fixed a conversion-tracking tag that had stopped firing on purchase pages, closing a gap in revenue reporting.
- Tested and validated releases before and after deployment.

PROJECTS

- **MomentLog AI** — AI-powered personal journal; an async FastAPI worker turns entries into a searchable memory system with semantic search and auto-summaries. Stack: Next.js, FastAPI, PostgreSQL, pgvector, Prisma. (github.com/abhishekdutta619/MomentLog-AI)

- **CloudSuite** — Multi-tenant SaaS platform using Postgres Row-Level Security for tenant isolation and a modular "chassis" architecture for plugging in new products. Stack: Next.js, NestJS, PostgreSQL, Drizzle, Turborepo. (github.com/abhishekdua619/cloudsuite-monorepo)
- **Simply Dwell Design** — Home-decor content platform with a custom GitHub OAuth publishing flow on Cloudflare edge functions, near-zero hosting cost. Stack: Astro, React, TypeScript, Cloudflare Pages Functions. (simplydwelldesign.com)
- **Sustainable Marketplace** — Multi-vendor marketplace with sustainability scoring and an AI shopping assistant, staged across MVP/sustainability/AI cut lines. Stack: Next.js, NestJS, PostgreSQL, pgvector, Redis. (github.com/abhishekdua619/sustainable-marketplace)

EDUCATION

Bachelor of Engineering (B.E.), Information Technology — SRIT (affiliated to Rajiv Gandhi Technical University) | 2010 – 2015

CERTIFICATIONS

Google India Challenge Scholarship | MEAN Stack Certification
